

Shopify POS for True Spec — the numbers.

What Shopify POS does for your 41-location fitting operation: the savings, the revenue lift, and the total cost.

Illustrative model — figures use industry benchmarks and what you shared on our calls. Swap in your actuals (listed at the end) and the math holds.

WHY SHOPIFY POS FOR YOUR CURRENT SETUP

- ▶ **Native spec capture** on POS line items (length, swing weight, CPM, adapter, weights) — no Google-sheet workaround.
- ▶ **Text/email payment link** in <30s — recover deals lost after the fitting.
- ▶ **Lower card rates** vs. your external payment portal.
- ▶ **~73s faster** per complex cart (POS v11) — throughput, not friction.
- ▶ **One admin, four brands** — ends phantom POs, double-ships, manual reconciliation.
- ▶ **One source of truth** on the customer + cross-brand reporting.

Why Plus, and why now: Fairway Jockey, Mirror, and McLaren each sit in a separate Advanced store, with True Spec's POS on ADS — four disconnected systems. Plus folds all four into one admin via Multi-Entity Selling (shared customers, catalog, apps, reporting, billing; each brand still its own invoicing entity). And **POS Pro is included on Plus at every location** — à la carte that's ~\$89/mo per store (~\$44K/yr across 41 locations), so the \$2,300/mo Plus license already covers POS everywhere, at the lowest card rates.

TOTAL COST OF OWNERSHIP — TODAY VS. SHOPIFY POS (ANNUAL)

LINE ITEM	TODAY (ADS STACK)	SHOPIFY POS (PLUS)
Card processing (~\$19.5M volume)	\$565,500 @2.9%	\$487,500 @2.5%
Platform license	\$14,400 Advanced ×3	\$27,600 Plus, all-in
ADS dev + server (backend)	\$60,000	\$30,000 reduced
Annual operating total	\$639,900	\$545,100
Recurring operating savings / yr		+\$94,800
+ One-time: implementation (setup + ADS integration)	—	\$30,000
+ One-time: POS hardware (~58 fitters)	—	\$11,000

Card rate and ADS cost are the biggest variables — first to confirm. Hardware is one-time; the pilot needs only a handful of devices, not all 58.

WHERE IT PAYS OFF

OPERATING SAVINGS / YR

Card processing (2.9% → 2.5%)	+\$78,000
ADS dev/server reduced ~50%	+\$30,000
Ops time — 10 hrs/wk (Cote's, @\$40/hr)	+\$20,800
Less: incremental license	-\$13,200
Net recurring savings	≈ \$115,600

REVENUE LIFT / YR (conservative)

Recovered post-fitting deals via payment links	+\$75,000
Endless aisle — ship out-of-stock from full catalog	upside
Faster checkout → more fitting capacity	upside
Shop Pay lift on the 3 ecom brands	TBD on GMV
Cote's Golf: ~50% less custom-order processing time on this workflow.	

NEW IN SHOPIFY POS (SPRING '26) — BUILT TO GROW REVENUE

- ▶ **Endless aisle / ship-to-customer** — sell any club, head, or shaft from the full catalog and ship it when a location's out of stock. Capture the walk-out sale.
- ▶ **Fastest-ever POS (v11)** — 60+ seconds saved per checkout; more fittings/day at peak.
- ▶ **Online → in-person via Shop app** — send local Shop shoppers to the nearest store; online demand becomes foot traffic.
- ▶ **Quick Sale payment links + shipping** — take payment and ship in one flow after the customer leaves (Matt's #1).
- ▶ **Tap to Pay across locations (Plus)** — contactless payment on a phone anywhere on the floor; cuts the hardware bill.
- ▶ **Multi-entity across retail (Plus)** — run all four brands from one store; ends the reconciliation drag.

BOTTOM LINE

NET RECURRING SAVINGS

~\$115K/yr

Operating, before revenue lift

YEAR-1 ONE-TIME COST

~\$41K

\$30K setup + \$11K hardware

PAYBACK

~4–5 mo

Savings cover implementation

TYPICAL IMPLEMENTATION & PHASED ROLLOUT

- ▶ **1 • Plus upgrade + consolidate ecom** — bring Fairway Jockey, Mirror & McLaren under one admin. You're already on Shopify online, so it's familiar and low-lift.
- ▶ **2 • Stand up POS for fitting** — spec capture, payment links, locations & Avalara; read-only sync to ADS / SKU Vault. ADS keeps running.
- ▶ **3 • Pilot a few locations** — run side-by-side with ADS to validate the fitter experience.
- ▶ **4 • Phased rollout** — extend POS across all 41 locations at your own pace.

Only next step, if it's worth a look: send your current ADS cost, card rate + payment-portal fees, annual card volume, ecom GMV for the three brands, and whether the four are separate legal entities — and I'll rebuild this as a locked TCO on your real numbers.
