

Shopify POS for True Spec — the numbers.

What Shopify POS does for True Spec's 41-location fitting operation: the savings, the revenue lift, and the total cost.

Illustrative model — figures use industry benchmarks and what you shared on our calls. Tell me which numbers to swap in (listed at the end) and the math holds.

WHY SHOPIFY POS FOR TRUE SPEC

- ▶ **Native spec capture** on POS line items (length, swing weight, CPM, adapter, weights) — no Google-sheet workaround.
 - ▶ **Text/email payment link** in <30s — recover deals lost after the fitting.
 - ▶ **Lower card rates** vs. your external payment portal.
- ▶ **~73s faster** per complex cart (POS v11) — throughput, not friction.
 - ▶ **Fitting + checkout in one system** — ends phantom POs, double-ships, manual reconciliation.
 - ▶ **One source of truth** on the customer + cleaner reporting.

Why Plus is the right fit for True Spec: POS Pro is included on Plus at every location — à la carte that's ~\$89/mo per store (~\$44K/yr across your 41 locations), so the \$2,300/mo Plus license already covers POS everywhere, at the lowest card rates. True Spec is already on Shopify Advanced, so the move to Plus is familiar and low-lift — same platform, more included.

TOTAL COST OF OWNERSHIP — TODAY VS. SHOPIFY POS (ANNUAL)

LINE ITEM	TODAY (ADVANCED + ADS)	SHOPIFY POS (PLUS)
Card processing (~\$19.5M volume)	\$565,500 @2.9%	\$487,500 @2.5%
Platform license (Plus adds POS Pro, all 41)	\$4,800 Advanced	\$27,600 Plus
ADS dev + server (backend)	\$60,000	\$30,000 reduced
Annual operating total	\$630,300	\$545,100
Recurring operating savings / yr		+\$85,200
+ One-time: implementation (setup + ADS integration)	—	\$30,000
+ One-time: POS hardware (~58 fitters)	—	\$11,000

Card rate and ADS cost are the biggest variables — first to confirm. Hardware is one-time; the pilot needs only a handful of devices, not all 58.

WHERE IT PAYS OFF

OPERATING SAVINGS / YR

Card processing (2.9% → 2.5%)	+\$78,000
ADS dev/server reduced ~50%	+\$30,000
Ops time — 10 hrs/wk (Cote's, @\$40/hr)	+\$20,800
Less: incremental license (Advanced → Plus)	-\$22,800
Net recurring savings	≈ \$106,000

REVENUE LIFT / YR (conservative)

Recovered post-fitting deals via payment links	+\$75,000
Endless aisle — ship out-of-stock from full catalog	upside
Faster checkout → more fitting capacity	upside
Cote's Golf: ~50% less custom-order processing time on this workflow.	

NEW IN SHOPIFY POS (SPRING '26) — BUILT TO GROW REVENUE

- ▶ **Endless aisle / ship-to-customer** — sell any club, head, or shaft from the full catalog and ship it when a location's out of stock. Capture the walk-out sale.
- ▶ **Fastest-ever POS (v11)** — 60+ seconds saved per checkout; more fittings/day at peak.
- ▶ **Online → in-person via Shop app** — send local Shop shoppers to the nearest store; online demand becomes foot traffic.
- ▶ **Quick Sale payment links + shipping** — take payment and ship in one flow after the customer leaves (Matt's #1).
- ▶ **Tap to Pay across locations** — contactless payment on a phone anywhere on the floor; cuts the hardware bill.
- ▶ **Returns & exchanges in one cart** — handle a refund, exchange, and new sale together, keeping the customer in the chair.

BOTTOM LINE

NET RECURRING SAVINGS

~\$106K/yr

Operating, before revenue lift

YEAR-1 ONE-TIME COST

~\$41K

\$30K setup + \$11K hardware

PAYBACK

~5 mo

Savings cover implementation

TYPICAL IMPLEMENTATION & PHASED ROLLOUT

- ▶ **1 • Upgrade Advanced → Plus** — True Spec is already on Shopify, so it's a familiar, low-lift upgrade that unlocks POS Pro across your locations.
- ▶ **2 • Stand up POS for fitting** — spec capture, payment links, Avalara; read-only sync to ADS / SKU Vault. ADS keeps running.
- ▶ **3 • Pilot a few locations** — run side-by-side with ADS to validate the fitter experience.
- ▶ **4 • Phased rollout** — extend POS across all 41 locations at your own pace.

If it's worth a look: let me know which numbers to swap in — current ADS cost, card rate + payment-portal fees, and your annual card volume — and we can review the real TCO together.
