

Your VPF at the approved 0.30% rate.

Plus bills the greater of the \$2,300/mo base or your Variable Platform Fee (VPF) on monthly GMV. At Catbird's volume, VPF always applies. Here's what it looks like across your last 12 months at your **approved 0.30% rate** — with each month compared to the standard **0.35%** you'd have paid before the discount.

The rate grows with you. VPF is a percentage of GMV, so the 0.30% saving isn't a fixed discount — it scales as Catbird grows. Every additional **\$10M** in annual GMV widens the gap by another **\$5,000/yr** vs. the standard 0.35%. Your peak months (Nov–Dec) already save nearly \$9K between them.

How VPF works: each month you pay the greater of the \$2,300 base or $0.30\% \times$ that month's GMV. At Catbird's volume, VPF exceeds the base every month (the base only applies below ~\$767K/month), so every month is billed at the rate. GMV figures are your last-12-months online totals (~\$50.9M); the 0.35% column is what the same volume would have cost at the standard rate. Approved 0.30% rate valid through July 30, 2026.
